

How Companies succeed working with MeasuredUp

Forward thinking companies and advertising agencies harness the power of MeasuredUp to connect with targeted consumers and build their customer service reputation.

Whether brands want to reach targeted customers while searching by category or company name, researching purchase decisions or writing reviews about competitors our numerous advertising opportunities help your company reach the right person at the right time with the right message. MeasuredUp helps you deliver your targeted advertising message while also learning about your consumers and competitors and developing, maintaining or improving a great customer service reputation and brand.

MeasuredUp is a valuable partner for leading companies that understand the importance of Customer Service to the brand and revenue and that want to demonstrate a commitment to customers.

Category Targeted Advertising

Advertise your company to consumers who are searching MeasuredUp by category. Your brand messages will come up at the top of the category results page.

The screenshot shows the MeasuredUp website interface. At the top, there's a navigation bar with links like 'Write Reviews', 'New Reviews', 'Link To Us', 'Blog', 'Press', 'Advertise', 'FAQ', 'Bookmark', 'Consumer Resources', 'Contact', and 'Home'. Below this, the main content area is titled 'Interior Design, Home'. A large green arrow points to a 'Your Brand Here' advertisement box. The page also displays a list of reviews, including one from 'Simply Organic' and another from 'Not So Affordable Lamps.com'. On the right side, there's a sidebar with 'Activity' and 'All Activity' sections, and a 'FREE SONGS' promotion. At the bottom, there's a footer with various links and contact information.
